Product Description

- ✓ Make calls from the remotest places, interact with your social networks and do not lose your way to be without GPS even when there is not a wall outlet available to charge the cell phone.
- ✓ Never lose a perfect picture because your camera or cell phone ran out of battery, you simply connect it to the power bank and that's it, shoot!
- ✓ Powerful and Lightweight: Easy to take anywhere with a huge capacity of 10000 mAh that allows you to charge an iPhone up to 3 times, a Galaxy S6 up to 2.4 times and a book light up to 6 times. 9 Oz ONLY to carry a LOT of power!
- ✓ Extra Fast Recharge: its 2.0A USB input allows it to be fully recharged in only 5 to 6 hours.
- ✓ Simultaneous Charge for Two: Charge your phone and a book light or tablet at the same time using the dual USB output. 3.1A in total (1.0A and 2.1A)

Easy to use

1. Connect your power bank to one of these sources using the included micro USB cable:
 - A 5VDC 2.0A adapter.
 - A 9w or more solar charger.
 - Any USB port on a computer or car radio.
2. When the charging indicator has the 4 LEDs on, the charge is complete.
3. Take your portable battery in your bag and you can charge your cell phone, music players, camera, book light or any USB enabled device.

Features

Charge for two:

2 USB ports allow you to do simultaneous charging of two devices.

Slim, elegant and light:

Only weighs 250gr and measures 150mm * 71.5mm * 15mm protected by a super strong aluminum alloy and with a beautiful finish.

Smart Charging:

Build-in smart IC chip for each USB port, the charger can be able to automatically identify the device and maximize its charging speed.

Certified Safe:

Multiprotect safety design (avoid over-charged, over-discharged, over-voltage, over-current and short circuit protection and more), perfectly protects your devices.

Certificates:

Passed the certs of CE, FCC, and ROHS, UN38.3, MSDS.

Qualified Battery:

Use Li-polymer battery, stable performance, excellent transfer rate and long service life.

Compatibility:

Works with any USB enabled rechargeable devices like: Mobile phones Android & iPhone, tablets, 5V PSP, 5V cameras, book lights, lanterns, radios, flashlights, etc.

Very Light For So Much Power
10000mAh
